

PA864A REPLACES PA1480

OLD PA864A
06A121011C, 06A121011E,
06A121011T

Diagram of the old PA864A water pump component. A red circle highlights the side port, and a blue diagonal line is drawn through it, indicating it is not present in the new model.

PA864A has been modified in order to fit applications also for OE 06A121012G.

NEW PA864A
06A121011C,
06A121011E,
06A121011T,
06A121012G

Diagram of the new PA864A water pump component. Red circles highlight the top and side ports, and blue diagonal lines are drawn through them, indicating they are present in the new model.

PA1480
06A121012G

Big tank

Diagram of the PA1480 water pump component. A red circle highlights the top port, labeled 'Big tank', and another red circle highlights the side port with a blue diagonal line through it, indicating it is not present in the new model.
