

PA945A SUPERSEDES PA945

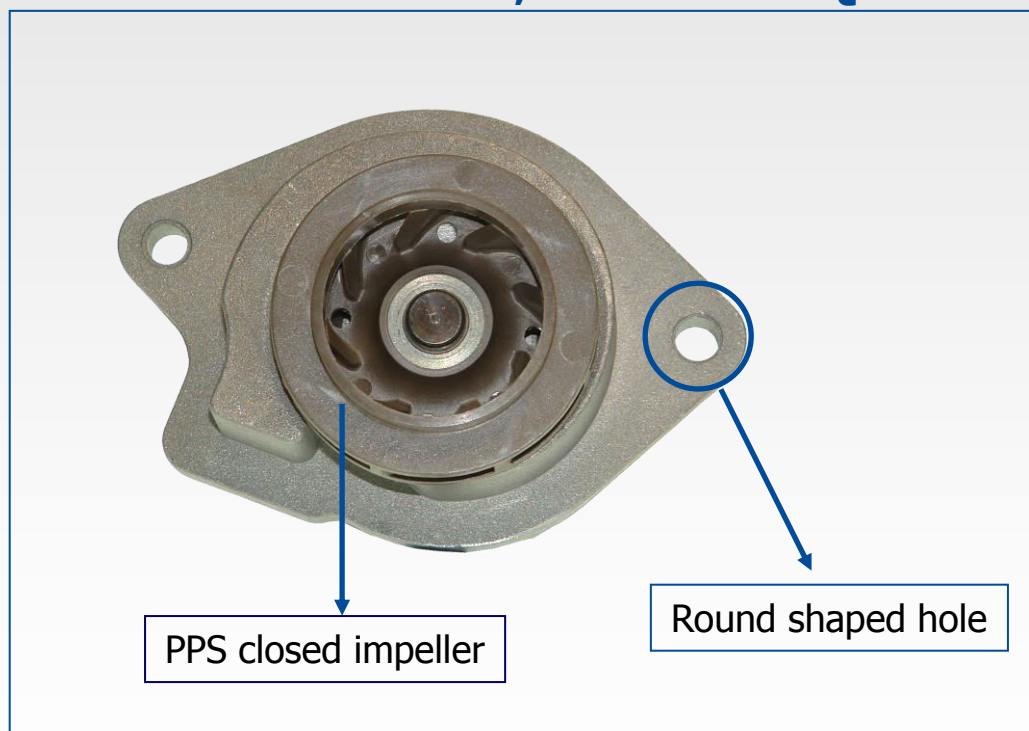

OE number VW 036121008L replaces old OE numbers 036121005B and 036121005Q. Saleri has consequently developed PA945A that replaces the former reference PA945.

The main difference is the different geometry and material of the impeller.

A further difference can be noticed in the additional elliptical hole on the housing that allows an easier replacement and a better fitting to the applications linked to this reference

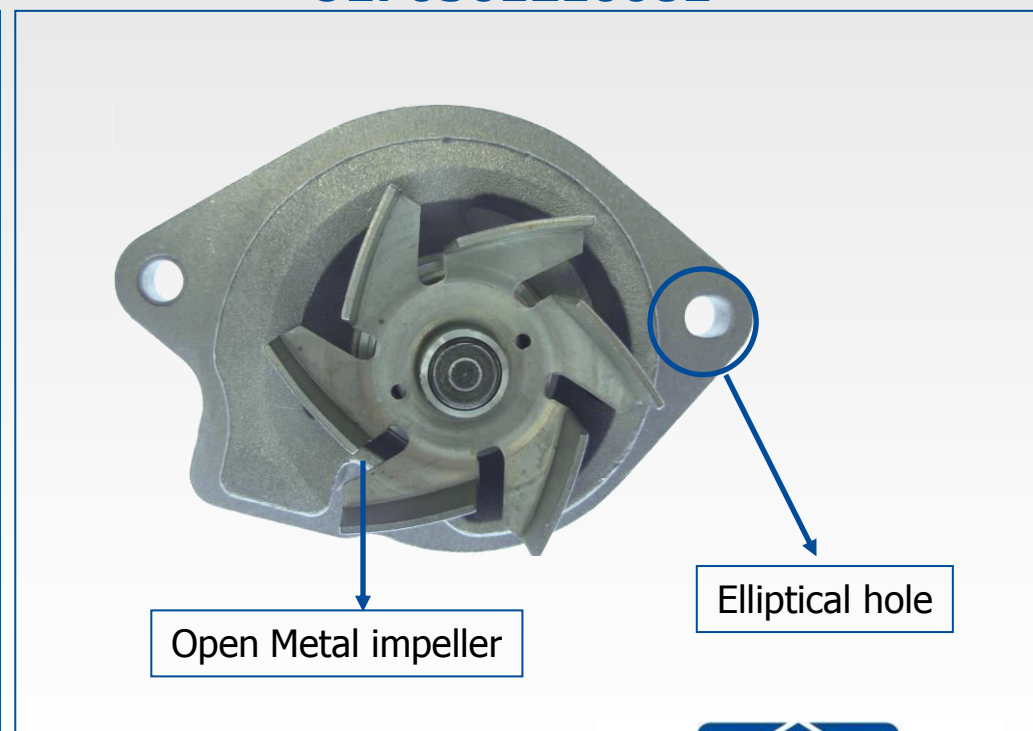

OLD PA945

OE: 036121005B, 036121005Q

NEW PA945A

OE: 036121008L
